# Online Program Registration

Registering for programs online is easy and convenient!  Start by pointing your favorite web browser to the library's website:  centemoricheslibrary.org and clicking on "Program Registration".

From the Calendar, you can either browse by day, or search for the program.  If you browse, once you click on the program you want, more information will jump out from the right side of the screen.

(TIP: There's a lot happening at your Library!  Click on the "all" text at the bottom of each day to see more of what's happening!).  Alternatively, you can search for a program with a keyword or using the program code.

Another way is through our newsletter.  Did you ever read our newsletter and wonder what the 3 letters and 3 numbers mean?  Enter that code in the program search to quickly sign up for a program!

Once you've found your program, register with your username or barcode, and your password.  It's the same as what you use to borrow e-books and access all the digital services the library offers!
