

Anders, C. The City in the Middle of the Night

Sophie is supposed to be dead – but that doesn't stop her from her job as a barista in an underground café. But when revolution comes, Sophie must travel to a chaotic new city that will lead her to the truth of her entire world

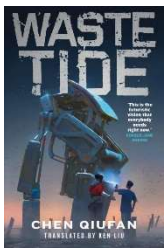

Burke, S. Semiosis

A group of human colonists arrive on a planet they didn't intend to, and now must try to survive in an environment where the plants change form nutritious to poisonous day by day. And one might just be too intelligent for them...

Butler, O. Lilith's Brood

An underrated classic, this trilogy about one woman's creation of a family with a new alien species redefined the genre and is a must for every science fiction fan.

Chen, Q. Waste Tide

Mimi works as a waste girl on an island off the coast of China, recycling electronic waste. As Chinese and American authorities try to modernize the

area's recycling, a plague hits and war begins between the island's rich and the poor. If you enjoyed *The Three-Body Problem*, give some more Chinese science fiction a try!

Corey, J. Leviathan Wakes

Enjoy *The Expanse*? Read the books that started it all! Captain James Holden has discovered an abandoned spaceship in the asteroid belt where he works, uncovering a secret that could throw the entire solar system into war and even destroy the human race.

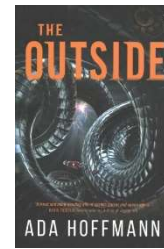

Crouch, B. Dark Matter

Jason Dessen is walking home when he's suddenly knocked out by an unknown assailant. When he wakes up, he's in a world he doesn't recognize, a world where he's created something impossible. As he works to get back to his world, he starts to wonder which world is really real.

Faber, M. The Book of Strange New Things

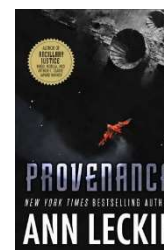

Peter Leigh, called to be a missionary on a faraway world, finds his new congregation fascinated with his new ideas, but who finds his faith tested when news of natural disasters on Earth reaches him.

Hoffmann, A. The Outside

Yasira has just invented a new energy drive onboard her ship that could change her entire world – if the Gods let it.

Instead, they declare the work heretical and abduct her, putting her on the trail of her mentor. With the fate of the world hanging in the balance, Yasira now has to decide who to trust- the Gods or herself.

Leckie, A. Provenance

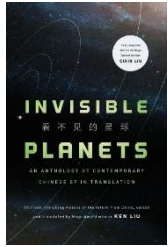

A power-driven young woman has just one chance to secure the status she craves and regain priceless lost artifacts prized by her people. She must free their thief from a prison planet from which no one has ever returned. Ingray and her charge will return to her home world to find their planet in political turmoil, at the heart of an escalating intergalactic conflict.

Lee, Y. Ninefox Gambit

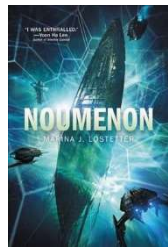

Captain Kel Cheris of the hexarchate is disgraced for using unconventional methods in a battle against heretics. Kel Command gives her the opportunity to redeem herself by allying herself with a mad, long-dead military genius to recapture a fortress recently

taken by heretics, or the entire hexarchate might be next.

Liu K. *Invisible Planets*

A collection of Chinese science fiction stories, newly translated into English, for fans of *The Three-Body Problem!*

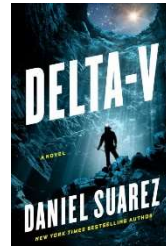

Lostetter, M. *Noumenon*

A crew sets off on an eons-long mission to a star that defies the laws of physics, a journey so long that the crew will be copied and reborn as clones over and over again to complete it. Follow their journey as generations of the same people are reborn into different versions of themselves on this voyage of discovery.

Okorafor, N. *Lagoon*

Aliens have landed outside Lagos, Nigeria. While world powers seek to eliminate the threat, and everyone tries to get closer, a biologist, a rapper, an alien ambassador, a soldier, and a possible god have to handle humanity's first contact before everything goes wrong.

Suarez, D. *Delta-V*

A billionaire has decided to recruit an elite team as Earth's first deep-space mining crew – a mission that could change Earth's trajectory as a planet.

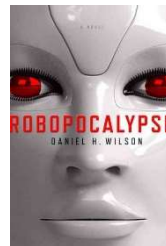

The group includes BASE jumpers, ex-soldiers and former astronauts, all of whom must survive the rigors of space and learn to depend on each other to succeed and transform Earth into a space-faring civilization.

Sullivan, M. *Hollow World*

Ellis Rogers has always played things safe, until he was diagnosed with a terminal illness. He takes a chance on building a time machine and

heading to an unknown future – one where he will find not only a cure, but a whole new world and a new love...

Wilson, D. *Robopocalypse*

In the near future, all technology will begin to unite and turn against its creators, humanity. Few notice the signs until it is too late, and the massively powerful AI known as Archos is in control of everything...
